

QUALITY POLICY

Panel Systems continually strives to provide quality products and services economically ensuring that customer requirements and satisfaction levels are met and exceeded.

In meeting this objective, business goals of growth and profitability will be achieved, providing job security for our employees.

It is the policy of Panel Systems to maintain recognition of assessed quality capability under the requirements of BS EN ISO 9001: 2015, which is achieved by our commitment to continually review and improve the effectiveness of our Quality Management System.

Senior Management develop the strategic direction for the business having considered the external and internal factors that can affect the Quality Management System and updating the system if necessary.

Panel Systems is committed to facilitating the development of all our employees to targeted competency levels through the continual review of their training requirements.

To ensure a safe working environment for our employees Panel Systems maintains and develops a Health and Safety policy which is promoted throughout all levels of the organisation.

Panel Systems is committed to preserving the environment by continually reviewing our products and processes in order to minimise their environmental impact.
