

Pressed Metalwork

Panel Systems has over 45 years experience in fabricating pressed metal components for architectural applications to meet bespoke customer requirements.

We have extensive facilities and our factory is equipped with the latest high-performance machinery all backed by the expertise of our skilled team.

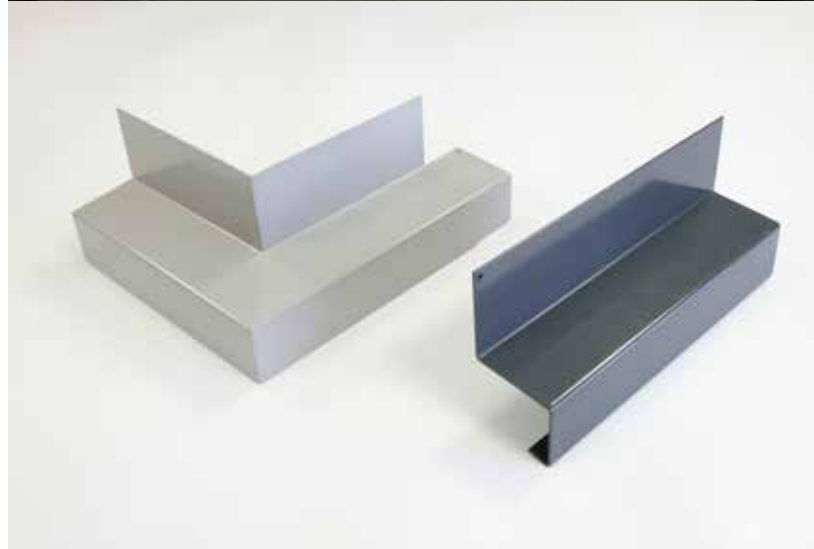

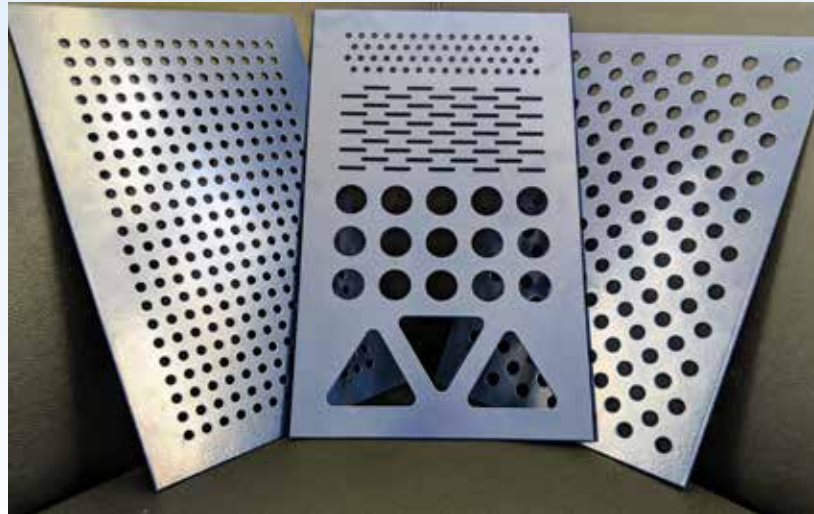

This includes a large capacity, LVD Strippit M-Series CNC turret punch, which allows us to offer customers great flexibility in design and optimised material output. The sophisticated punch utilises various tools including punching and forming operations which help to increase our productivity.

We work with a variety of materials including:

- Aluminium (Including anodising grades)
- Stainless Steel
- Galvanised Steel
- Copper
- Brass

Our state-of-the-art facility also includes a cutting edge 4000mm guillotine, press brake, T.I.G. welding and a full range of CAD facilities. Our team can also provide customers with prototypes, prior to fabrication.

All our aluminium & steel pressings can be supplied either as mill finish or powder coated to Syntha Pulvin, Valspar & Interpon D powder coating. We also offer anodised surfaces including the Anolok™ range of colours.

Typical applications for our pressed metalwork include:

- ✓ Perforated sheet
- ✓ Cills
- ✓ Rainscreen trays
- ✓ Bespoke pressings and laminated panels
- ✓ Brackets
- ✓ Bespoke punched components
- ✓ Balustrade panels
- ✓ Enhancement of internal areas such as stairwells and escalators

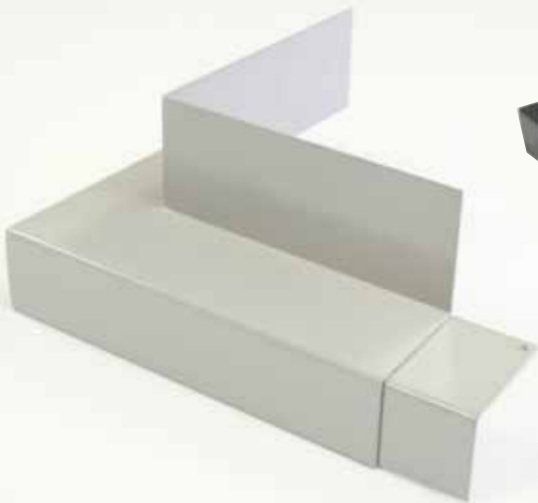

At Panel Systems, we pride ourselves on our high level of quality and service. All our products are manufactured to Standard BS EN ISO 9001:2015.

With a highly experienced team of customer service staff, CAD designers, production operatives and logistics specialists, we have the capabilities to manufacture high quality, custom-made pressed metalwork in both small and large quantities.

We are located in Sheffield close to the M1, and therefore ideally situated for either collections, or distribution of product direct to sites throughout the UK and beyond.

For pricing, or to discuss your requirements in more detail, please contact us using the details at the foot of this page.
